PREFACE

The present section (III) of the catalogue of Sanskrit books is the first to be printed since work on the catalogue was resumed after the War. As explained in the Preface to Section II (published 1951), certain economies of cataloguing method, designed to reduce the bulk of the catalogue, have been introduced both into this section and into the further section (IV), now being prepared for the press, by which the catalogue will be completed. These changes of style are described in the Introduction below.

OCTOBER, 1952.

INTRODUCTION

With the publication of this the third of the four sections of the Catalogue of Sanskrit Books, it may be useful to add some further remarks in explanation of the principles followed in its compilation. For the sake of convenience the relevant points mentioned in the preface to Section I will be repeated here.

1 *Scope*

The Catalogue covers works in Sanskrit and Prakrit, but not in Pali. Any work containing the original text in these languages, with or without commentaries or translations in any language whatever, is included. Translations into a European language printed without the text are also included, such translations are not segregated into a separate category but will be found in their normal chronological position among the printed texts. Translations into Oriental languages printed without the text will be found in the catalogue of the relevant language and not here.

Printed texts of inscriptions however are not included, these are entered in the catalogue of European books.

2 *Form*

In form this is a dictionary catalogue, in which titles of works are the main entries. Cross references are given from the names of authors, commentators, compilers, editors and translators, from the name and number of publishers' series, from the titles of commentaries where these have a distinct title of their own, as well as from variant forms of the names of both works and people. Main entries and all cross references are contained in the body of the catalogue in one alphabetical sequence. There are no indexes.

3 *Main entry*

The main entry is placed under the title, this being the only place where the full particulars are registered. The entry normally takes the form of a transcription of the whole or part of the title page. Cataloguer's remarks, which are in square brackets, have been used only exceptionally.

4 Method of arrangement

The different editions of any one work have been generally speaking classified into categories, the names and order of which are given below. Within each category the editions are arranged chronologically. The division into categories has occasionally been varied somewhat for the sake of convenience.

- 1 EDITIONS WITHOUT COMMENTARIES (including translations into European languages without the text)
- 2 INDEXES
- 3 ABRIDGMENTS
- 4 SELECTIONS
- 5 PARTS
- 6 EDITIONS WITH COMMENTARIES

For this purpose the meaning of the word commentary is confined to Sanskrit commentaries, whether classical or modern. Texts with commentaries in modern Indian and other languages will be found under Category 1.

The editions with commentaries have been further classified in alphabetical order under the titles of their commentaries and sub-commentaries, a colon being used to separate the title of the text from that of the commentary, and of the commentary from that of the sub-commentary. The use of a colon in this connection always indicates that the work following the colon is a commentary on that preceding, *e g*,

Prābhāṅjana by VITTHALESVARA Māruta-sakti by
GOVARDHANA GHANASYĀMA ŚARMA

Here the colon before Māruta-sakti indicates that this is a commentary on the Prābhāṅjana.

This method has been followed to its logical conclusion, *e g*,

Brahma-sūtra by BĀDARĀYANA Sāriraka mīmāṃsā-
bhāṣya by ŚĀṆKARA ĀCĀRYA Bhamati by VĀCASPATI MIŚRA
Vedānta-kalpa-taru by AMALANANDA

The publisher in this case gives the title and author of the book as Vedānta-kalpa-taru by AMALANANDA, but following the principle of the catalogue it is classified as shown above, and this in spite of the fact that Śāṅkara's and Vacaspati Miśra's commentaries are not printed in this edition.

Where two or more parallel commentaries of the main text are printed, the work is entered under the title of the text and the first printed commentary, and a cross-reference is given from the title of the text and the other commentary or commentaries

Under the heading PARTS is given a mere list of names of those portions of a work which, having an identity more or less independent of the main work of which they form a part, are entered under their own title To find the actual editions available it is necessary to refer to the entries under the name of the relevant part, *e g*, under

Mahā-bhārata. PARTS

is given, among other names, *Bhagavad-gītā*. This indicates that editions of the *Bhagavad-gītā* are entered under their own title

5 Reprints and revised editions

Reprints and revised editions are entered in the chronological position of the first such edition, not in that of the date of the reprint

6 Author and commentator references

Where an author has written both text and commentary, the entry under his name takes the form, *e g*,

RĀJASEKHARA ĀCĀRYA *Dana-sat-trimśikā* °*avacūri*

whereas when he has written the commentary only, the text being anonymous, the form is *e g*,

KṢEMARĀJA *Svacchanda-tantra* °*uddjota* by K.

7 Dates

When the date of impression is printed in the book in the Christian era, it is given in the catalogue as it stands, the letters A D or other indications of the era being omitted When the date in the book is given in an Oriental era, it is printed in the catalogue as it stands, with the corresponding A D date of the Christian era following in round brackets When the date of impression is not found in the book it is, where possible, supplied by the cataloguer and inserted in square brackets

8 Script

In the case of books printed in South Indian characters, the name of the script has been added in italics

9 *Change of style*

In order to reduce the bulk of the catalogue, in this and in the remaining section the form of cross reference from author, editor, series, etc., has been abbreviated. There is thus some difference in style between this and the preceding sections, but it is not felt that the change is such as to cause any inconvenience to users of the catalogue.

Cross references of the type

Bhagavad-gita-bhāṣya by ĀNANDATĪRTHA See Bhagavad-gītā °bhāṣya by Ā

have also been omitted since it is considered that users of the catalogue will realize that commentaries are entered under the title of the work on which they comment. Where however the commentary has an independent title of its own, e.g. *Māruti-śakti*, the cross reference has been retained.

As explained in the preface to Section I, the compilation of this catalogue was begun in 1918. Since then a number of people have been concerned with the work, mainly at different times and independently of each other. It was probably inevitable under the circumstances that some lack of uniformity in detail should occur. Moreover the size of the catalogue and other considerations led to the publication of the first sections before the work as a whole had been thoroughly revised. In a work with a multiplicity of cross references this was bound to result in some discrepancies which become more apparent as more of the catalogue is published. It is hoped however that these are not such as to impair the utility of the work.

Much more than a conventional tribute is due to the printers, Messrs F. Mildner & Sons, who have had to compose this volume under difficulties of the most formidable nature, and who have actually contrived to become sufficiently familiar with Sanskrit not merely to avoid contributing errors but to assist in eliminating those already present.
